(REVERSE)

Soldiers of the Black Watch will not hesitate to shoot anyone to protect their lives.

Always be careful when approaching a Black Watch soldier. Any suspicious or violent actions will result in the use of deadly force.

We would like you to go about your normal life as usual and when the situation in the area is safer, we will decrease the strict security measures we are imposing in the time being.

Please do as you are asked and follow the instructions at any checkpoint or in the presence of the Black Watch soldiers in your area. Your refusal to do that may result in death for you or your families.
